Introduction to 100

100 is an exciting supercar and lifestyle club that acknowledges exactly what distinguished members require when joining such a club.

In return for an annual membership fee 100 takes care of the substantial financial costs usually associated with direct ownership. Such costs include depreciation, insurance, storage, service costs and general maintenance.

Join The 100 and experience...

100% performance, **100%** pleasure, **100%** passion... **0%** depreciation.

"Driving a supercar is one of those life experiences which if you're into cars, is an absolute must. Being a member of 100 and having a multitude of supercars at my fingertips without the huge cost of ownership is brilliant - in fact I always describe it as a 'no brainer'.

The service is first class and the cars are always absolutely immaculate. My wife and I both share a love of motor cars so I opted for her to be my nominated driver – it means if we're out together either of us can drive which enables us to share the supercar experience.

When I tell people about 100 they think it's too good to be true...so if you're waiting for a catch there isn't one!"

Club Structure

100 Members exchange their points for driving time in cars throughout their membership year. The number of points used on a booking is dependent on the car's group, the season and the day of the week. Members are free to choose how much of their mileage allowance they wish to use during each booking.

Note: 3 day weekend is Friday 12:00 hrs (noon) to Monday 10:00 hrs. Chart illustrates points cost per day.

The overall number of days that a 100 Member enjoys from their membership year will therefore vary according to the combination of Club cars they choose and the time of year they are driven. Usually 100 Members enjoy an average of 50 days driving per year with Titanium Membership and 70 days driving per year with Platinum Membership.

100 offers four different driving seasons, which entitles members to greater point value throughout the year.

100 offers a nationwide service with delivery and collection throughout mainland UK.

Alternatively vehicles can be collected from or returned to any Distribution Centre.
At such times the member's own car may be stored and valeted if required.

* includes VAT @ 17.5% † Membership only available for members living permanently abroad - to be used over a 24 month period.

The Carbon Overseas Membership is specifically created for non-UK residents. Carbon Members are offered the flexibility to spread their points and miles over a 24 month period.

Membership fees include insurance for the 100 member and their spouse/partner subject to the successful completion of a possible driving assessment programme. This programme is not compulsory, but is subject to previous driving experience and history.

100 offer a number of bespoke corporate membership packages designed to meet the individual requirements of the corporate body. Such packages suit three or more Members and allow for the pooling of points and miles for maximum flexibility. Corporate packages can be used as incentive schemes or rewards for employees or clients.
